

Dear London Study Abroad Prospective Students,

Please find attached the **London Semester, Spring 2026 application** and **registration form**.

Return these to me as completed, signed, PDF files, by email.

For your course registration:

- 1) Meet with your advisor and fill out the courses from the application and sign the attached registration form, along with your advisor's signature.
- 2) Get a signature from the registrar and return the signed registration form to me via email as a PDF file. This is your Spring 2026 HSU registration.
- 3) You may also take online courses but those will need to go through your regular online registration with your advisor.

**All students** must take British Life and Culture (core course – please indicate if you need it to count for HIST or HUMA) and must take at least 9 hours of courses, **in London**, and at least 12 hours total.

The HSU block tuition applies to this program, and I have large scholarships available too.

We will have two orientation sessions in Fall 2025. Feel free to contact me via email with questions. I will have a London Travel Tips Info HSU 2026 information file available by April 2025 that I can send to you and will post on the facebook group.

Let me know if I can help!
